## HEALTH AND SAFETY POLICY

### General Statement of Policy

This document is the Health and Safety Policy of the BCS Community.

Our policy is to:

A. Provide healthy and safe working conditions, equipment and systems of work for our volunteers, committee members and members of the public.
B. Keep the facility and associated equipment in a safe condition for all users.
C. Provide such training and information as is necessary to volunteers and users.

It is the intention of the Management Committee to comply with all health and safety legislation and to act positively where it can reasonably do so to prevent injury, ill health or any danger arising from its activities and operations.

The Management Committee considers the promotion of the health and safety of its volunteers, members and users who use its premises, including contractors who may work there, to be of great importance. The Management Committee recognises that the effective prevention of accidents depends as much on a committed attitude of mind to safety as on the operation and maintenance of equipment and safe systems of work. To this end, it will seek to encourage volunteers, members, and users to engage in the establishment and observance of safe working practices.

Volunteers, members and visitors will be expected to recognise that there is a duty on them to comply with the practices set out by the committee, with all safety requirements set out and with safety notices on the premises and to accept responsibility to do everything they can to prevent injury to themselves and others.

Agreed: 01/08/2025
